# Find “The Channel”

How A *Jobless 62 Year-Old, A Corporate Drone, And A Single Mother* Had the Chance to Add An Extra \$25,250 To Their Retirements Since Last January

And You Could Do The Same In 2012...

Dear XXX,

Have you ever lost your job, and had your retirement go up in smoke over night?

It happened to Jim M from Houston, Texas less than 18 months ago.

At 62 years old Jim was happily working in Venezuela on a project. Making a good living...building his nest egg...and was just a few years from retirement.

And then, faster than you can say *pina colada* it all disappeared.

Hugo Chavez, Venezuela's president nationalized the project to bolster the sagging economy. Overnight, Jim was unemployed, and facing a retirement shortfall.

His story is the type of “retirement nightmare” you dread. One minute your future is certain, the next minute your forced to cannibalize the nest egg you've spent your entire adult life sacrificing to build.

When Jim got back to Texas, he wasn't exactly a prime prospect at 62 years of age. Instead of an experienced, and qualified hand like Jim...companies wanted their workers to be cheap, young and willing to be worked like a dog.

So Jim began looking for ways to supplement his income through investing.

It turned out investing wasn't easy. Jim's results at first were mostly up and down. But then, Jim stumbled upon the answer.

On August 9<sup>th</sup> 2010 Jim found a letter that talked about a very unique opportunity that could help him supplement his retirement. Intrigued, Jim signed up to join the group.

Literally, 7 months to the day, on March 9<sup>th</sup> 2011 Jim reported back what happened after he joined the group that offered the unique opportunity.

Jim is no longer looking for a job, and he “wouldn’t take one if it was offered”.

Now jobless Jim...who just 7 months ago had no job prospects and was facing a steep retirement shortfall...is retired thanks to what he learned with this group.

But he is not alone.

## **St Louis Missouri Native Finds “The Channel” And Retires From The Corporate Rat Race!**

From the outside, Joseph seemed to have it all...a beautiful family, nice “things”, and a great job.

But for Joseph one part of his life...wasn’t so perfect.

His job—the one everyone thought was so great—he hated. No matter how much he may have made...in his eyes, his corporate job was going nowhere.

Joseph wanted out of the “rat race”. So he began searching for ways to replace his income. It was during this search, that he stumbled upon the same small group that Jim M. did.

Intrigued, much like Jim M was, he joined. But shortly after joining Joseph quit!

Joseph says he left because of his “own” issues...but after having time to think about it...the opportunity was too great to ignore.

Since coming back...

**Joseph said he’d made a killing on the “X” and “AGU” trades, making 39% and 42% respectively!**

He also shared a little tidbit about those trades I just have to share.

He said, “The key to those trades was patience and not chasing, just like he’d been taught.” It was the key to cashing in on these trades.

Joseph says he hasn’t chased another option/stock/ETF since...and that it was truly an eye opener for him.

The best part of Joseph's story though...

I'm very happy to report, that because of what he'd learned about finding "the Channel"...Joseph was finally able to leave his "corporate rat race job".

And another member of the same group, hopes to do the same one day...

## **Single Mom Uses "The Channel" To Save For College And Retirement... And To Sleep Well At Night...**

For Cynthia C. from Kennesaw, Georgia...everything seemed so complicated.

As a single working mom she was stretched thin. Her wish of going to college and being able to retire one day...seemed almost impossible.

But Cynthia didn't put her dreams aside. Instead she bore down and worked harder to make a better life for her family.

She turned to investing, to raise the money she would need to go to college.

Predictably, as a "wet behind the ears" newbie, Cynthia lost, and nearly over-leveraged herself into an empty trading account.

But on the verge of giving up, Cynthia stumbled upon the same small group that Jim and Joseph did.

Immediately she could see the difference. She began learning the secrets...and tactics that the very best traders use to profit.

It was exactly what Cynthia needed. Being able to find "The Channel", and consistently extract profits helped turned things around for her.

**Cynthia said she traded the plays on TLT, and PBR, which could have shown her 41.7%, and 56.7% gains,"**

Being in the group has made her confident that she is on the right track. IN fact now she can sleep at night because she always knows exactly what she has at risk.

But I'm sure you are wondering...what these people have to do with you?

Simple.

These three were all part of a very special group who learned how to find “The Channel”...and had the opportunity to make an extra \$25,250 to supplement their retirement fund since the beginning of last year.

They weren’t experts, traders, or insiders either...they were just regular people.

Today, you’ll have the chance to learn these secrets...and take the next step toward your own goals and dreams...no matter how big or small they are...

Just like Jim, Joseph and Cynthia...you can...

## **Find “The Channel” And Inject An Extra \$25,250 Into Your Nest Egg...**

Hi, my name is Costas Bocelli. I’m a contributing editor for IFII and a former floor trader and market maker on the Philadelphia Stock Exchange (You can see more about me in the side bar).

These three people you’ve been introduced to have only one thing in common. It’s not their age...their gender...their wealth...or where they live.

But membership they share in a small group, and their unique knowledge of “The Channel” which transformed their lives.

The group Jim, Joseph, and Cynthia belonged to formed in August 2010, to help regular people get access to institutional market knowledge, trading floor secrets and top-level trading tools.

“Things”, that under normal circumstances most just don’t have access to. The hope is we could give you “the edge” that makes institutional traders successful.

The guidepost of this group...is something you can’t learn in a classroom...from a textbook...or on the pages of a New York Times Best Seller.

It’s a little-known method for extracting profits from “The Channel”, which has been hoarded by an elite group of Philadelphia floor traders for far too long.

You should know that I was once part of this group of traders.

I learned this method and these secrets from my mentor...as he did his...and as his mentor did before him. All of them were wealthy traders themselves.

To my knowledge...the group created on August 2010...is the first (and only) group of “outsiders” to learn these secrets and this “method”.

As you will see...and have already read briefly...the results have been incredible. Not just in wins and losses or dollars...but in how they've transformed people's lives.

Once you can find "the Channel"...you could generate profits over and over again...almost on demand!

Even if you are a complete investing amateur... as long as you are dedicated to learning this secret... you could start making an extra \$25,250 this year.

But you don't need a PhD. from Harvard, a \$500,000 portfolio, or more than 4 hours a week to get started.

Over the next few pages you will...

- Go behind the scenes of the group who proved finding "The Channel" can help you rebuild your retirement. You'll see their results – with nothing held back.
- Discover exactly what "The Channel" is... how to find it... and how to siphon off profits from it, almost risk-free.
- Understand how you can tilt investing odds in your favor...to an impressive 66% chance of success... allowing you to profit in two of the three possible scenarios for *every* trade.

But most of all, you'll learn how you can start rebuilding your retirement... day by day until you reach your goals by siphoning consistent fortifying gains into your retirement account.

Here's how...

## **“Finding The Channel” Could Help You Win 4 Out Of Every 5 Trades You Make...**

As I promised, you get the unvarnished truth about this group.

It's ups, its down, and exactly what it's done since the beginning of last year. Through this time, people like Jim, Joseph, Cynthia, and hundreds more have had the chance to make...

\$25,250 directly from the Channel.

Of course, not every pick of this trading strategy is a winner...look at September 16<sup>th</sup> for example.

But as you can see by the chart below, losses are few and far between. In fact, since January of last year this group has only seen 6 losing plays...out of 29...and HAS AVERAGED 17% gains every 30 days!

Check out the big winners on July 5<sup>th</sup>, October 10<sup>th</sup>, October 26<sup>th</sup>, January 3<sup>rd</sup>, January 25<sup>th</sup> and March 5<sup>th</sup>.

Just take a look for yourself.

**(Insert Track record)**

I hope you are starting to see, just what being able to find “The Channel” could do for you...and how you could have the chance to start rebuilding your retirement.

But I’m sure you have questions.

Like how can this method be so consistently successful? And why does it work?

## **“Why “Finding The Chanel” Works And Has Helped—Safely—Make An Extra \$25,250 Over The Last 15 months”**

It would take me several hours to explain all the details about how and why this method works so consistently...

But I’ll break it down and give you the condensed explanation.

First of all... you’re probably aware that any stock or Exchange Traded Fund (ETF) can trade in one of three directions – Up, Down, or Sideways.

When you use my method that I’ve refined, tested, and perfected over the past 13 years – you’re able to make money if the stock or ETF moves in 2 out of those 3 possible directions.

So how is this possible?

Well, here’s how it works...

Every option trade comes with two halves.

The first half of the play lets you profit if the stock (or ETF) moves up or down. This depends on whether we are bullish or bearish on that play.

And the second half of the play is designed to let you profit even if that stock (or ETF) moves sideways.

And *that* is why this method is so powerful.

**By being able to 'skim profits' during sideways moves, you're able to make money on 2 out of 3 possible directions... in other words – a 66% chance of success.**

The odds are stacked in your favor from the start and literally **DOUBLES** your chances for winning on each and every trade.

This gives you a **HUGE** unfair advantage over others who can only make money if their play moves in just one direction.

And here's the really good news...

Stocks and ETFs spend most of the time trading sideways. And this is the main reason why this group has enjoyed a 79% winning track record in 2011.

Let me show you a couple of examples...

Recently, we saw an incredible opportunity on shares of Rydex (NYSE: FXY).

In January of 2011, shares were poised to take a slide...bad for most folks, GREAT for us.

Take a look:

There were so many dips and spikes; the only way you'd have made any real money is if you were lucky enough to have pinpoint timing...

Forget about it.

Instead of worrying about all that, we sat back, and watched easy 19% gains roll in.

Something similar occurred again just a few days later... on shares of United States Steel (NYSE: X).

Just ten days later, our group was celebrating again, as they watched a potential 33% gains roll in while everyone else LOST money.

Are you starting to see how powerful this strategy is? BOTH instances where most folks lost money, we were able to potentially scoop up lost cash for ourselves.

Now, you may say those gains aren't all that big.

But those are just two of countless opportunities that occur one-after-another every day the markets are open.

Plus, consider this:

Both of those gains occurred within days of each other.

If you could replicate that – which is FAR easier than you might think – over the course of a full year...

**\$1,000 in each play would turn into \$7,865 in pure profit. \$2,500 would become \$19,622. And \$5,000 would grow into \$32,845.**

And remember, these are just the first couple of examples of what this group was able to potentially make at the start of 2011. As you saw already the gains throughout the year were actually MUCH larger.

Even today, years after learning how to find “The Channel” and plunder it for profits...I still can’t believe it’s as easy as it is.

## **Stop Messing Around... Start Finding The Channel Like Jim, Joseph, And Cynthia Did! It’s Easy!**

One of the first lessons I learned as a wet-behind-the-ears trader on the PHLX was that the market — as well as individual stocks and ETFs — will almost always “ping pong” back and forth between support and resistance.

Whether we’re in an uptrend, a downtrend, or even a sideways one, there are fairly predictable points on the charts where the battle between supply and demand takes place.

Each of these points represents *fantastic money making opportunities for traders to profit.*

You might be somewhat familiar with the principles of support and resistance. If you need a refresher, just look at this chart of Peabody Energy (BTU) ...

As you can see, if you know where to look, you can see *multiple opportunities to make money.*

The same is true for stocks and ETFs in downtrends. Just look at this chart of the Treasury Bond ETF TLT:

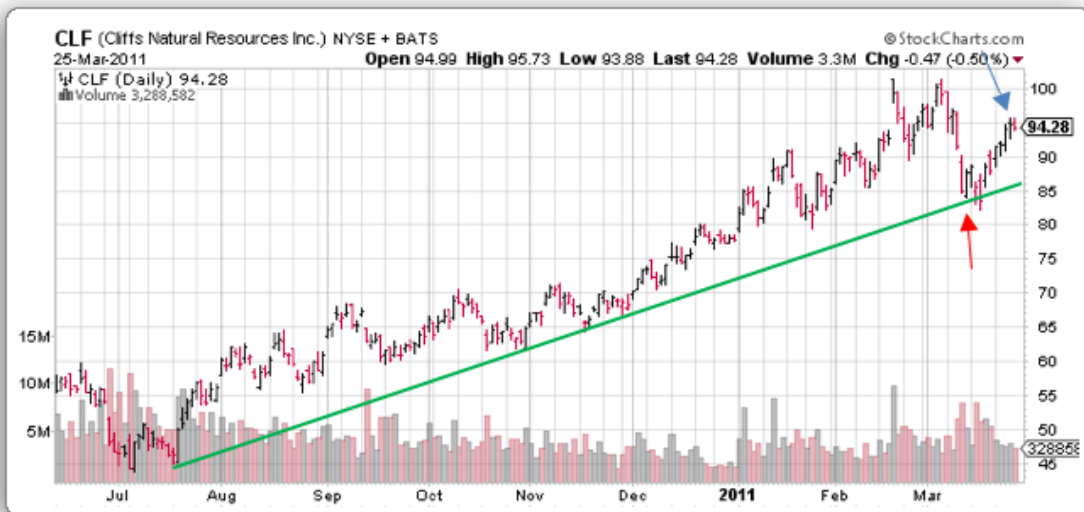

As you can see these channels can present you with multiple opportunities to make retirement fortifying gains.

But the secret to trading these channels profitably isn't nearly as difficult as you might imagine. In fact, the knowledge you need is something that I can pass on to you quickly, starting today, in a way that's easy to understand.

## **How Finding The Channel Could Have Made You a 47% Gain In Less Than 2 Weeks!**

A perfect example came in March of this year.

I had my eye on Cliffs Natural Resources (CLF), a mining company of iron ore and steel-making metallurgical coal.

Courtesy of StockCharts.com

Without revealing too much here, we entered the trade on March 11<sup>th</sup> (red arrow), and we were able to exit the position a quick 13 days later (blue arrow).

The stock itself traded higher by about 11%. But by following my method, we realized **a potential 47% profit**.

These are the kinds of opportunities — and the kind of **profit amplification** — that come from trading in "the Channel".

## **"The Channel" Provides Group Members Profits Of... 18.9%...22.3%...38%... 43%...45.2%...62%...63%...And More!**

*"After learning (this secret), I bought DEC call spreads in Nov. and closed them out in Dec with a 43% profit. Thanks Costas..."*

*Jack D. New York, New York*

*"I have already paid for the service on my first two trades, and I have had several other trades that have all exceeded 85% profit!! See you at the bank!!"*

*Ross G. Vancouver, Washington*

*"I was able to get into several much lower than the recommended price. I must admit, I did go skipping through the house after I sold RIG at a 76% profit!"*

*Melanie M. Glen Falls, New York*

*"I have been able to understand the market on a deeper level than ever before. One of the trades that I executed on my own was a very profitable bull spread in UGA (a gasoline ETF) that has netted me a 38% profit."*

*Chester R Salt Lake City, Utah*

*"Thank you Costas! Due to your excellent training I was able to close out TLT for a 96% ROI. Maybe could have gotten a few more pts. But, as you say, cost/benefit mandated discretion as the better part of greed. I am very happy to close 100% ROI any time. Thank you so very much!"*

*Michael W Reno, Nevada*

*"I have begun to trade on my own. Dec. 2010 - 45.2% profit (3days) Jan. 2011 - 18.9% (1 day) Feb. 2011 - 22.3% (2days) Feb. 2011 - 62.0% (4days) Many other winners around the 10% profit level) 64% win rate! Gday Costas,"*

*Greg H. Durham, North Carolina*

*"Hi Costas, I did do the GLD and closed when you suggested, earning 19% net profit. I followed it up by entering OXY. I closed the position on the 11/9/2010. All together this was a great trade which made a profit of 151%."*

*Karolina J. Austin, Texas*

*"My actual best trade was WFT which I closed today. I held the trade for 16 days and turned a 63% profit...Based on my experience with Costas over the last year I am already working on how to spend my profits..."*

*John F Champaign, Illinois*

*"...Speaking of vacation I did close the SPY position for an 80% gain...!"*

*Rafael Oshawa, Ontario, Canada*

*"Closed out on MON with a 30% gain for me. Hesitant to stick with the play as the stock felt to me like it was going to go back over \$80. 30% is cool so I took it and slept well...."*

*Geoff S. Salem, MA*

*“My two highest trades were TLT \$381.00 and AGU \$140.00...”*

*Roy G. San Diego, California*

## **Why I'm Sharing This Trading Secret With The Public...**

Until recently—knowledge of “The Channel”, and how to extract profits out of it consistently was limited to the traders on the Philadelphia Stock Exchange.

After 13 years of watching the rich get richer and the rest struggle I decided to change things.

It's why I joined IFII, because what I know is just too important to keep to myself.

So for over a year I studied and researched in the hope of coming up with a way to share this secret with you...in an easy to learn and fun way!

It's simple...it's effective...it's safe...it's proven...and it doesn't require you to be some Harvard-Level PHD!

It's called *Channel Trading Secrets!*

*Channel Trading Secrets* teaches you the whole “method” that Jim, Joseph and Cynthia could have used the last 15 months to siphon a possible \$25,250 into their nest eggs.

It's also the exact same “method” I learned on the Philadelphia Stock Exchange trading floor that helped me build my own fortune and make millions for clients...from “the Channel”.

To date this course has helped even more people harness the power of this method to make more profits.

*“They have taken away my fear of shorting various stocks. Since I took a bath in options and commodities in my earlier trading days of the late 80's-early 90's. This 'system' gave me confidence to go short or long, whatever the signal showed, basically without the fear I had been experiencing.”*

*Greg G., Memphis Tennessee*

*“Costas, I have taken numerous other courses and gained something from each of them - some more than others. But your CTS program really was exceptional. It took all the knowledge that I had and brought it all together.*

*I found the CTS Signals an enormous saving of the time normally needed to search for potential trades.”*

*Duane H., Mobile, Alabama*

*“CTS has given me more confidence and comfort to trade in days to weeks... I am a student of IFII who has been able to utilize the information in CTS to increase my wealth which is an example to others the value of CTS course...”*

*Robert M., San Diego, California*

*“The Channel Trading System has helped me to organize my trading strategy and integrate what I already knew into a profitable trading system of my own...Staying within the structure I find my profitable trade percentage is rising and my emotions around trades are quieting down. I am thinking clearer and making decisions in an organized and pragmatic manner.”*

*Brian F. Norman, Oklahoma*

*“As a former senior advisor to the CBOE, PHLX, and the now defunct AMEX, I have been involved in futures and options throughout my career. This year I bought CTS. I believe that these products have revitalized my trading skills, and I am even sharing ideas with other traders.”*

*Christopher S. West Palm Beach,  
Florida*
