

## **Quarterly list scrubbing email series...8 Days of Freedom**

### **Email #1: Intro Email**

Dear Reader,

I was recently crunching the numbers for our quarterly reporting...when I noticed something a little troubling.

For some reason, you've yet to take full advantage of the Sovereign Society's resources.

I do see that you subscribe to our free publications, but you haven't budged yet on any of our Best-Selling books or Premium Services.

Now I'll be the first to admit our Editorial Staff does churn out articles that really rock and are quite helpful for Sovereign Individuals.

But subscribers who get their hands on our best resources truly take a quantum leap forward...whether they're interested in asset protection or investing info.

Now I realize there are a number of reasons why you haven't taken the next step in your personal journey yet...

Maybe our services and products are too pricey...but can you really put a price on your own security? I don't think so.

Maybe you're just not ready to take the next step...but if not now, then when? When we're living in a police state, with zero freedoms and over zealous financial laws? (Wait a minute...)

Or maybe you're already positioned, and if that's the case I'm happy for you...and count you among the lucky few.

Because the honest truth is most people reading this, heck most Americans aren't prepared for the sea change that's happening right now. I know I'm not immune to what's going.

In fact I read the same articles, use the same resources our members do because frankly I want to not only survive our tumultuous times but succeed.

But I digress.

Over the next 8 days I'd like to give you access to the very best opportunities we have in a relaxed, low-pressure, non-salesy environment.

All I want you to do is read each email and select what interests you...use the information and get the absolute best results possible.

So even though I believe that cost shouldn't stop you from quite literally changing your life...I want to make this as painless as possible for you.

In that vain I talked with my staff last week, conferred with corporate and we decided to offer you an exclusive bonus for the next 8 days.

For each one of our services we'll be offering an amazing XX% off. So you'll not only get one of our best services, but also get it at the best possible price. That's my commitment to you.

Also when you purchase one of Bob Bauman's book you'll receive a complimentary membership to the Sovereign Society.

That means you get 12 issues of the Sovereign Individual, access to our members only website, and access to our special reports, (Plus the book) for only the cost of the book itself. No extra charge whatsoever.

I've written a brief description for each one of our services and books below. For additional information click on the name of the product that interests you...

After these 8 emails if you don't find anything you will not hear from me again after the final email in this series.

Sincerely,

Erika Nolan

Your partner in Success

P.S. I really hope you find something that interests you...I understand the temptation to stay with the status quo. It's not a sin by any means, if you're happy with what you have, with the direction of our country and the tenuous grasp you have on your personal freedoms then I happily wish you luck. And after your 8<sup>th</sup> email I won't bother you again.

### **Email #5: Sovereign Society Freedom Alliance**

Dear A-Letter Reader,

*The Freedom Alliance* was created because of the need for up-to-date and accurate asset protection information.

Our readers have been asking for it for a number of years...because you see many of them have a deep, deep belief in personal freedoms and rights. More so than the average person.

They want to protect their wealth, secure their freedoms and make sure that "Big Brother" isn't peeking too obtrusively into their lives.

And who doesn't?

The government's gotten fat, overbearing and frankly out of hand...with the Bush Administration's wiretapping, lying and bailouts...and the Obama administrations health spending and over zealous crusade against personal wealth.

**That's right...an over zealous crusade against personal wealth.**

The Obama administration wants to make sure that You and I pay as much in taxes as possible. So offshore investing, asset protection and privacy laws—the things that helped protect us in the past...are now under attack.

Even worse we're being labeled as un-American for embracing the true American ideals of personal freedom, Liberty and justice for all.

This is not about party affiliation, democrat or republican...this is simply about protecting your rights and freedoms.

So we're fighting back...and helping our member's protect themselves from the transgressions our government is committing.

With the **Freedom Alliance**, a service that provides the best, most up-to-date information and tactics to protect you and your assets.

Even better it's a life time membership with a nominal fee up front and then a tiny \$49 a year charge every year after.

And the membership includes free admission to the "*Total Wealth Symposium*" conference each year (a \$995 value per year), copies of all our books for life (a \$396 value per year), and access to our new Legislative Alerts (a \$300 value per year)....plus many more extra benefits that total a yearly value of \$2,489.00.

But you don't pay anywhere near that.

At launch time we were offering a drastic discount for charter members for a limited time that has since expired.

But because I've promised you the best rates on all our products and services I've opened up that price for you today.

But you must act today. **[Click here for more information](#)**

Yours truly

Erika Nolan

Executive Director of the Sovereign Society

P.S. This offer is only good for you over the next 24 hours...if you miss your chance today you'll be stuck paying the regular price of the membership \$1,090.00. **[Click here](#)**.

P.P.S

### **Email #6: Credit Crunch Short Report**

Dear A-letter reader,

I'm very excited to share today's product with you. It's fairly new and has been performing like gangbusters!

No seriously it has. But more on that later, first I'd like to tell you about the incredible process that went into this discovery.

It started months ago when we hired a new hotshot editor named Andrew Packer. Andrew came to us with a lot of pedigree...an impressive education, real world investing experience and a true desire to help people.

But unlike many people I encounter in this industry he had a very ambitious idea he discussed with our head of Editorial Justin Ford.

See Andrew believed he'd found a precise four step method to identifying bad credit companies ready to take a plunge.

To be honest I was very intrigued when Andrew pitched me the idea...so I asked him to bring me back data to prove what he'd found.

So a few weeks later he did just that. And I couldn't believe it...the results were spectacular and proved successful over and over again.

To say the least I was all on board after that...and Andrew with the help of our great team here created his new service the **Credit Crunch Short Report.**

Having launched in late October, as you may have seen it's been a home run.

**Let me tell you as we speak the Credit Crunch Short Report has 6 out of 7 plays profitable...and is averaging 25% per play so far!**

What I'd like you to do click on the link below and read the special report we prepared for you. I think you'll really find the information interesting, and exciting. I sure did.

**Check it out.**

Thanks

Erika Nolan

Executive Director

P.S. Remember you have a few more days to secure services like the Credit Crunch Short Report at a discount. **Once this deadline passes you'll never be offered this price again.**

P.P.S. Shorting is a gold mine right now...and Andrew's system makes it exciting. Now I know some will tell you shorting is bad or something...but anything you've heard isn't true. When you know for sure a companies going bottom it makes it easy as pie. Not to mention you have Andrew watching you back. **It's a no brainer.**

P.P.P.S we included a special guide with this service that can really get you up and running fast. Plus as soon as you sign up you'll get instant access to the members only site where you'll get to check out back issues, the portfolio and any special reports Andrew's written up. **But you must act today.**
