Dear Sovereign Society Member,

Did you know bank failures have jumped 392% this year?

In 2008 bank failures stole the headlines as 25 of the big boys fell... while this year that number jumped to 98 through September.

The news gets even worse because (as of Sept 29th) the FDIC is officially broke with more money outstanding in deposits than they can cover.

And they freely admit right now that they've identified 416 "Problem" banks that are "doomed to fail".

Unless you take the necessary steps to secure your money... you could be forced to watch in horror as your bank and dollars disappear.

That's why Bob Bauman (Sovereign Society Legal Counsel and Senior Editor) worked feverishly the past few weeks to update his best selling book, *Where to Stash Your Cash Legally...* and why we are offering you the first chance to get a copy absolutely free.

The Best Ways to Invest Offshore and Protect Your Wealth...

Here are just a few quick examples of what you'll find in the 480 pages of *Where to Stash Your Cash Legally...*

- A simple 6-step action plan to make your wealth and privacy protection goals a reality in less than, 6 weeks!

over, please...

- Invest in the most explosive and heated markets in the world where large gains are still possible... no need to get your passport stamped, buy plane tickets or even leave your home.
- The best legal structures to lower your taxes.
- How to earn up to \$82,400 a year tax-free or \$175,200 if you're married...
- How to reinvest your company profits and pay expenses while LEGALLY avoiding income tax on your business dollars.
- Make your wealth almost invisible... or at least untouchable to would-be creditors, litigation and potential financial liabilities, perhaps even an ex-spouse bent on revenge.
- Move to this English speaking country, with excellent health care without paying taxes for 5 years... or with the right job get an instant 50% tax break!
- How the new offshore banking rules affect you... the best ways to LEGALLY get around them and be banking in a few weeks.
- Looking for a new home? Discover how a new home could save your wealth... and allow you to freely travel throughout the British Commonwealth. Including the E.U.!

If you're even slightly worried about the direction of our country... that your personal hard earned wealth is under attack... or that the rapid growth of government bailouts will throw us into the most challenging period in U.S. history...

Then You Need to Claim Your Free Copy of *Where to Stash Your Cash Legally Today...*

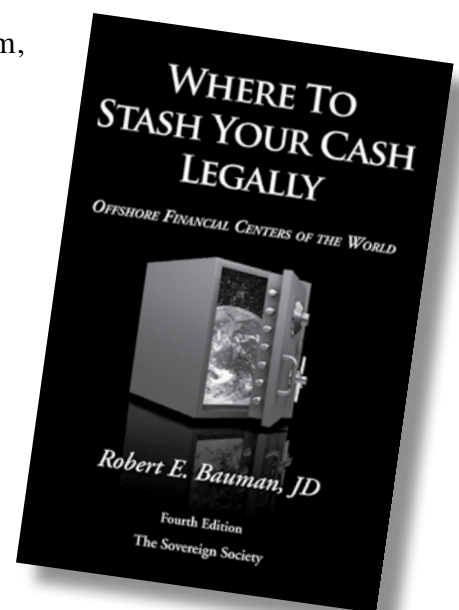

As a Sovereign Society member in good standing, I know you're interested in ideas outside of the mainstream, that promote personal freedom, financial independence and privacy above all else.

And second, you're a person of action who asks questions instead of blindly accepting what politicians and big business try to force feed you.

So I'm sure that you can understand why I'm so excited.

With the massive amounts of dollars lost by investors everywhere, the loss of our civil liberty in the name of "national security", the crazy government spending on "Bailouts for Billionaires," and the near nationalization of our country... it's crucial you prepare a plan for yourself and your family.

That's why I immediately thought of you... I wanted these books

in the best possible hands. Someone who's going to dog-ear the pages, highlight sections and really get good honest use out of it...

But before I tell you how to secure your FREE copy today... before we go forward, let's at least recap what we've been through together — including warnings about the sub prime crisis a year before it hit, about the real estate crash before it exploded, and now the treasury bubble crash, which could cause massive inflation.

The Sovereign Society Will Guide You to Offshore Profits and Financial Privacy in 2010...

We all know 2008 was a dreadfully bad year for most. But as a Sovereign Society member, with access to *The Sovereign Individual* portfolio, you had the chance to average 13.6% per play...

Including winners like...

- Angelo American 194.57%
- CapitaMall Trust 144.40%
- Hang Seng H-Share Index ETF 764.67%
- Valero December 20 Puts 283.93%
- XLF December 20 Puts 167.00%
- Vestas Wind Systems 139.22%
- Safety First Trust PPN (Japan Nikkei) 279.04%
- Arab Gateway Fund 18.12%

And this year our editors have found even more unique and highly profitable opportunities and it's translated so far into a 58.53% average per position. That's a gain of nearly 30% in under a year (since Dec 08).

In our current environment of massive government spending, a continued erosion of our privacy and financial protection, our teams of editors/counsel of experts are working hard to give you the best international investments, tax strategies and ironclad wealth strategies.
